

**Saturday 18 - Sunday 19
December, 2021**

Ahmedabad, India

Hybrid Heart Summit

Joint Cardiology, Cardiac Surgery & Cardiac Anaesthesiology Conference

Jointly Organized by

Gujarat Cardiac Surgeon's Club

Cardiology Society of India (CSI, Gujarat chapter)

Indian Association of Cardiovascular and Thoracic Anaesthesiologists (IACTA, Gujarat Chapter)

Preliminary Programme

Saturday 18 December

Training Village : 2 Hrs.

TAVR/TMVR

- Perioperative Assessment of Aortic Valve by TTE in TAVR
- Perioperative assessment of Mitral Valve in Mitra clip/TMVR – 3D aspects
- Minimalistic TAVI
- Bioprosthetic Valve Fracture for Optimized Valve in Valve TAVR
- Alternate Approaches for Performing TAVI
- Balloon Expandable TAVR - A review
- TAVI – Management of Complications
- TMVR – Step by Step
- TPVR – What When and How ?

MICS (Minimally Invasive Cardiac Surgery)

- TEE in MICS
- BITA Grafting – how to achieve best results
- Multivessel CABG – MICS v/s Conventional
- Hybrid Coronary Revascularization – When to Consider
- Cannulation & CPB for Minimally Invasive Procedures
- Mini Bentall Procedure – Step by Step
- Robotics in Cardiac Surgery – The Way to the Future
- Recent innovations in Cardiac Surgery
- SVR v/s TAVR - Debate

Heart Failure

- Management of Acute De-compensated Heart Failure – Choice of Inotropes
- LVADs in Acute Heart Failure
- Long term VADs – Not a Easy Task to Manage !
- Mitra Clip – An Overview
- Recent Advances in Management of AF
- Heart Transplant – Real Story Starts After Surgery
- Starting a New Heart Transplant Programme – At Least You Need These !
- Evaluation for Heart Transplant candidacy – How to Optimize ?
- Weaning VA ECMO

Inauguration

2021 Hybrid Heart Summit

Aorta

- Detail Assessment of Aortic Valve for AVR
- Management of Aortic Arch in surgery for Type A Dissection – Where is the fear ?
- Hypoplastic Left Arch Syndrome – Hybrid Approach
- Are We Still Ignoring Type B Dissection ?
- Management of Complex Aortic Arch Diseases – Hybrid Approach
- Consolidation in the Aortic arch – Treatment Options for Each Pathology
- Advances in Management of Thoraco-Abdominal Aortic Aneurysms
- Pulmonary Artery Stenting – Good or Bad ?

Innovations

- Triclip – An Overview
- Endovascular Repair of Type A Dissection – Is it the Future ?
- New TAVR Solution with Active Paravalvular Leak Sealing Technology
- Trik Valve - Is it Worth ?
- Impella – How Can We Increase Clinical Applications ?
- EX-Graft – A Graft Which Grows with Child
- Remote Monitoring of Heart Failure Patients
- CT Fusion Technology with 3D Echo – Moving Step Forward.
- Robotics in Cardiology

Training Village : 1 Hrs.

Closing Remarks
